ABOUT INSTITUTE

Govt. College of Engineering Karad is a premier institute in Western Maharashtra established in 1960 due to the efforts of Late Shri. Yashawantrao Chavan. The College is affiliated to Shivaji University, Kolhapur and is acting as a vital education center for many years. Recently the institute also got autonomous status. The institute offers 5 UG programs in Civil, Mechanical, Electrical, Information Technology and Electronics & Telecommunication Engineering and also 6 PG programs in Civil (Construction Management & Structural Engg.), Mechanical (Heat Engg. & Production Engg.), Electrical Engineering (Power Systems) and Master of Computer Applications (MCA).

Amongst the eleven institutes from Maharashtra state selected for participation in the third phase of Technical Education Quality Improvement Program (TEQIP-III) – an ambitious project of Government of India. Govt. College of Engineering, Karad is one of them. The institute is spread over 40 acres of serene and green campus and is a predominantly a residential campus. Karad city is situated on the confluence of rivers Krishna and Koyna and is well connected

ABOUT FDP

As part of TEQIP-III, a Faculty Development Programme (FDP) on “Machine Learning and Artificial Intelligence” is being conducted at GCEK, Maharashtra to the faculty members of Engineering, Research Scholars and other allied disciplines from India. This FDP is devoted to fundamental theory, recent developments and research outcomes addressing the related theoretical and practical aspects of Machine Learning techniques for engineering applications in wide area. The FDP also aims hands-on using MATLAB for techniques to be used for implementing applications that require machine learning algorithms.

Course objectives

>To learn and understand different soft computing techniques used for the various engineering applications.

>To enhance the knowledge and technical skills of the participant through the workshop.

>To provide the knowledge of latest research innovations to the participants so that future generations get maximum benefit.

Program Outcome

The participant should be able to understand and apply different soft computing techniques and machine learning algorithms to the various engineering applications.

COURSE INSTRUCTOR

Faculties from reputed institutes like IITs/NITs, Universities and Industries.

ELIGIBILITY

Faculty members and research scholars from AICTE approved Engineering and polytechnic Institutes and Industrial persons are eligible to participate. Participants are required to register in advance using the enclosed form.

COURSE CONTENTS

- ✓ Introduction to Machine Learning
- ✓ Types of classification, supervised and un-supervised learning.
- ✓ Statistical pattern recognition techniques- SVM, KNN etc.
- ✓ Operations & Applications of ANN and types of neuron activation functions.
- ✓ Deep Learning.
- ✓ Optimization techniques (PSO, GA, etc).
- ✓ Development of rule base and decision making system.
- ✓ Applications of fuzzy systems
- ✓ Journal Selection/Preparation/Submission (Scopus/SCI indexed)
- ✓ Design of Fuzzy Logic Controller in MATLAB/SIMULINK

REGISTRATION

The Participants who will receive confirmation mail will have to send the filled and duly signed registration form along with the copy of registration fees payment proof by email

REGISTRATION FEES

Student Participant: Rs. 1000/- each

Faculty Participant: Rs. 2000/- each

Industry Participant: Rs. 4000/-each

The registration fees shall be paid on-line after receipt of acceptance from us. Traveling, Lodging, boarding and other expenses will have to be borne by the participant. Accommodation will have to be managed by the participants only. However, the guidance will be provided for accommodation.
