To,
Dr. Abhay Wagh
Director,
Directorate of Technical Education, Maharashtra

Dear Dr. Abhay Wagh,

Subject: Request to write to all the Technical Education Institutes of Maharashtra under Directorate of Technical Education to conduct the Students Solar Ambassador Workshop on 2nd October 2019, as a part of GGSY, IIT Bombay.

In the backdrop of energy sustainability and mitigating climate change, the idea of "Energy Swaraj" or localized energy self-sufficiency has been conceptualized. Gandhi Global Solar Yatra (GGSY, www.ggsy.in) is planned not only in India but across the globe. The young generation, who will bear the maximum burden of climate change, has to be an integral part of this clean energy revolution and Energy Swaraj.

A culmination event of this yatra, the **Students Solar Ambassador Workshop** is being organized on 2nd Oct. 2019, marking the 150th Birth Anniversary of Mahatma Gandhi, wherein hands-on training will be given to students to make their own solar study lamp. A similar workshop was also organized on 2nd October 2018, wherein more than 1.30 lakh students assembled their own solar study lamps all over India, which was also a Guinness World Record event.

In the above context, we would like to invite students of all the technical institutions across the state of Maharashtra to participate in this one-day global event on 2nd October 2019. The organizations are requested to register at www.ggsy.in Following points should be kept in mind while registering:

- Each organization will conduct the event in their own premises.
- All Students of **11 years** and above are encouraged to take part.
- Organizations will require (a) master trainers, and (2) solar lamp kits. Organizations can nominate teachers to become master trainer on www.ggsy.in after registration, the training to master trainers will be provided through online course developed by IIT Bombay.
- The Organizations need to procure the lamp kit with tool kit to assemble. The cost of lamp kit, tool kit, taxes and transportation is Rs. 510. The list of vendors from where the kits are to be procured is given on the website. Payment for the kits are to be made directly to the vendor.
- Certification fees of INR 10 per student (by the student) have to be paid after registration while freezing the exact count of participants (This amount will directly go to IIT Bombay Donation Account)

We look forward to your positive response.

Regards,

Dr. Chetan Singh Solanki
Professor, Department of Energy Science and Engineering,
Principle Investigator, NCPRE & SoULS Initiative IIT Bombay

Ms. Sheetal V. Golalkar
