Vision of the Department

Nurture Pharmacists, Serve Community.

Mission of the Department

- ✓ Imparting quality education to meet the needs of industry & community..
- ✓ Bringing academic excellence through innovative teaching & learning practices.
- ✓ Making students self reliant by nurturing entrepreneurial & employment skills.
- ✓ Providing platform for all round development of students & inculcating ethics, values & attitude.
- ✓ Providing pharmaceutical care to community & serve them for betterment of their health.

About the Training Programme

In the 21st century there is a paradigm shift on the role of the teacher. Teachers already face numerous problems such as varying student interest and abilities, exam oriented learning managing large classes and so on. To reduce some of these problems, teachers are often called upon to explore use of technology in their classrooms. The technology is moving rapidly in recent times than our ability so we need to adapt to the new way of technology. Nowadays, Information and Communication Technology (ICT) play a vital role to reduce mass illiteracy and help to overcome the educational problems. In many fields of study, ICT based learning is useful to improve understanding of practical knowledge. This Training program will be focus on the Empowering Teaching Skills through Modern Pedagogy Techniques.

Following are the objectives for the training program:

- Identify various ICT devices and applications useful in teaching-learning
- Make use of best practices for information dissemination using ICT
- Design the study material using technology like Wordpress & Moodle etc.
- Know validated teaching/learning methods like flipped class-room, project based learning, problem based learning etc.

Empowering Teaching Skills Using Modern Pedagogy Tools
