

About The Institute

Government Polytechnic, Malvan was established in 1985. This Institute imparts quality education to provide competent technical manpower to industry across the country and known for its excellence at State and National level. At present, the Institute offers Diploma programs in Civil, Mechanical, Electrical, Electronics & communication, Computer and Food Technology as unique course in Maharashtra.

Program Overview

This program is designed to enrich the faculty in the Polytechnic to be familiar with use of ICT tools in teaching-learning process applied for post-covid education scenario. Registered participants will have to undergo online audio-visual content from session experts. Participants will need to appear for Online Quiz everyday and submit online assignment. They will be evaluated by giving grades as per defined rubrics. The online platform has a provision for conducting a discussion forum for clarifying doubts with respective session experts. Participants will be awarded with E-Certificate after successful completion of program.

Contents

Some of the important take-aways of the program are: Creation of Visual Presentation, Creation of Video using Power Point, Development of audio-visual learning modules using Screen Recording Softwares, Publishing video on Youtube, Create Google form and response Analysis Google Quiz and Certificate Generation Google Classroom (Assignment, Quiz, Material) "Edmodo" Learning Management System, Online Quiz and Poll using Testmoz and Mentimeter.
